

R3 - **EDGE** Performance Mud Motor (6 ½" OD)

FIXED

ADJUSTABLE

- Utilizes Short Bit To Bend (SBTB) Technology – bit to bend (44.5" fixed) and (56.7" 0-3 adjustable)
- Improved Build Rates – using lower than typical length motor setting
- Able to Drill Concentric Hole - eliminates hole spiraling
- Reduction in Service Cost - reduced OD wear as lower bend setting can be used
- Monobore Wells - able to drill down to kick off, build section and then lateral section with one motor
- Available in 0-3 Adjustable or Numerous Fixed Housings (1.90 fixed / 2.12 fixed)
- Utilizes Heavy Duty Drive Shaft and Diamond Thrust Bearings
- On Bottom Max WOB 100,000 lbs / 44,800 daN
- Off Bottom Max WOB 100,000 lbs / 44,800 daN
- Heavy Duty Internal Connections – extremely strong and will handle high torque and even wall power sections
